This is in response to the letter dated September 12, 2012 regarding the beginning cash balance of the amended April 2011 quarterly report. Prior to January 2012 all reports were prepared by a volunteer with no previous experience or knowledge of FEC regulations. As of January 2012 we engaged a professional CPA firm to handle all accounting and reporting functions of the Campaign to the FEC. The firm has reconciled our bank accounts for 2011 and 2012 and the ending balance is correct. The Campaign has established procedures to ensure internal controls are followed and the bank accounts are reconciled monthly. This will safeguard against future discrepancies.
